ABOUTT SRMF

In 1994 Sweet Relief Musicians Fund was incorporated as a 501C3 nonprofit charity, and has since been offering vital assistance to professional musical artists in need. Sweet Relief is a resource for music industry professionals, providing emergency financial assistance and other forms of support to career musicians, road crew and anyone who makes the majority of their income in the music business.

OUR MISSION

Sweet Relief Musicians Fund provides financial assistance to all types of career musicians and music industry workers who are struggling to make ends meet while facing physical or mental health issues, disability, or age-related problems.

Music makes our lives, and the events in our lives, special and memorable. While few find fame and fortune, most musicians remain in the field for their love and passion of music. The choice an individual makes to be a professional musician is one of sacrifice. The average income across the various employment options, while accounting for the part-time nature of most opportunities, is less than \$25,000 annually. Over 65% of professional musicians do not have health insurance.

The financial hardship a working musician faces when dealing with illness or disability is a constant, but we now also face a burgeoning elder population of artists with little or no resources available for such emergency situation
